NEWS RELEASE

BA'EMEK ADVANCED TECHNOLOGIES LTD RECEIVES EXCiPACT GMP CERTIFICATION AS PHARMACEUTICAL EXCIPIENT SUPPLIERS

Brussels, 24 May, 2016

EXCiPACT asbl is delighted to announce that **Ba'Emek Advanced Technologies Ltd** has recently been awarded an EXCiPACT Certificate from **AJA Europe**, one of EXCiPACT's internationally-recognised Certification Bodies.

The Certificate demonstrates that **Ba'Emek Advanced Technologies Ltd site in Afula, Israel, manufactures** pharmaceutical excipients according to the EXCiPACT Good Manufacturing Practice (GMP) Certification Standard. Its scope covers Pharma Grade Lactose Production and Storage in the pharmaceutical industry. This is the first Israeli site to receive EXCiPACT Certification. For full details of all 35 sites certified to date in Canada, China, Belgium, France, Germany, The Netherlands, India, Israel, Saudi Arabia, Singapore, Spain, Switzerland, UK and USA, see <http://www.excipact.org/certification/certificates/>

Both AJA Europe and their auditors had to undergo a rigorous assessment process in order to be EXCiPACT Registered. This required the successful completion of the EXCiPACT Training Programme and post-course examination followed by an independently witnessed audit to verify that their competency was to the required standard. AJA Europe also had to have their auditor's report verified by an independent certification board prior to issuing the certificate.

EU and U.S. pharmaceutical regulations now require drug manufacturers to conduct either their own or commission 3rd party physical audits of all their starting material suppliers to demonstrate GMP and/or GDP compliance thus increasing the audit burden. Using GMP and GDP standards designed for excipients, the independent, high quality 3rd Party EXCiPACT Certification Scheme is already helping excipient users and suppliers to reduce their audit burden, save costs and assure quality.

Notes for the Editor

EXCiPACT asbl provides management oversight for a high quality, voluntary international scheme that provides for independent 3rd party certification of manufacturers, suppliers and distributors of pharmaceutical excipients worldwide. The Scheme will ensure patient safety through supplier quality while minimising the overall costs for assessing the excipient supply chain. It was launched in January 2012 since when there has been considerable interest among pharmaceutical excipient suppliers, customers and regulators. For further information see www.excipact.org or contact info@excipact.org. **EXCiPACT is a registered trademark.**
